

# Sustainable development indicators: cross references

The following is a list of the indicators to be found in the *Sustainable Development Report*. Additional indicators, notably economic or financial, are published in the *EDF Group Financial Statement and Annual Report*, some of which correspond to GRI references.

## Performance Indicators

### Economy

Provisions for plant decommissioning  
 Provisions to cover the back-end of the nuclear cycle  
 R&D expenditure

### Environment

Total input of raw materials (excluding water) by category  
 Input of waste materials (recycled or not) from sources outside the company (%)  
 Input of energy by source  
 Description of main impacts of generation and services on terrestrial and aquatic biodiversity  
 CO<sub>2</sub> emissions  
 NO<sub>x</sub> emissions  
 SO<sub>2</sub> emissions  
 Low- and medium-level radioactive waste volumes (including ash and % low and very low level waste recycled)  
 Radioactive emissions to air and to water  
 Significant environmental impacts of main products and services  
 Renewable energy: percentage electricity generated from renewable energy sources (%)  
 Renewable energy: off-grid sites using photovoltaic technologies for electricity  
 Renewable energy: green electricity sales  
 Spending on environmental management  
 Ground and river water volumes: drawn and returned  
 ISO 14001 Certification  
 Breakdown of EDF parent company R&D spending relating to the environment  
 Burial of new medium-voltage cables (%)

### Working conditions

Staff breakdown by category  
  
 Staff covered by collective bargaining agreements (%)  
 Description of joint committees responsible for questions of health and safety, including representatives from management and staff; staff covered by committees of this kind  
 Number of injuries leading to three or more days of sick leave  
 Number of fatal injuries  
 Training policies and programmes  
 Sick leave  
 Training (hours/employees and %)  
 Women executives (%)  
 Official staff representation in decision-making and management, including corporate governance  
 Staff covered by a health and safety management system (%)  
 Agreement with the FAGERH  
 Agents in nuclear: dosimetry, medical check-ups

### Human rights

Solidarity expenditure  
 Policies concerning the disabled

### Accountability

Respect for voluntary codes; standards or other distinctions awarded to the company in terms of environmental responsibility (ISO 14001)

### Other

Customers provided with off-grid rural electrification
