# Facilitating high-impact Global Compact networks – a practical guide

**III Annual Global Compact local  
networks meeting, September 2005**

September 2005

# Purpose of the guide:

- The guide developed jointly by UNDP RBEC and the Global Compact Office
- Provides support for UNDP country office staff facilitating Global Compact activities at the local level
- On-line, step-by-step guidance and practical how-to advice on launching the GC and establishing the GC networks at the country/regional level

# Purpose of the guide:

- How can UNDP assist in launching the GC and /or secure the sustainability of the GC network?
- What roles might UNDP play in the process of launching the GC network?
- What kind of critical issues will have to be dealt with regarding management judgments, resources, timeframe and level of personal involvement needed?
- How to promote a coherent approach by UN agencies in launching the GC and establishing a network aligned with integrity measures and standards promoted by the Global Compact office.

- The guide was created by practitioners in response to many requests for a ‘beginner’s guide’.
- Experiences are captured in the form of stories and tips throughout the guide.
- Examples used in the guide refer mainly to UNDP experiences, the content can be useful to other UN agencies and institutions that want to establish local/regional GC networks.
- Committed to a process of continuous improvement – warmly welcome your feedback
