Mentoring & COP Peer Review

**UNGC UK Network
COP Working Group**

Peer Review Programme Statistics

- 2 years
- 9 rounds of peer reviews
- 27 peer reviewers
- 35 COPs reviewed
 - 19 found to be compliant (54%)
 - 10 compliant with qualification (29%)
 - 6 non-compliant (17%)

Issues identified by WG:

- How hard should peers look to find information?
- Must UK Network have same standards as GCO?
- Is the peer review process too punitive/legalistic?
- Should a COP be an audit/control device or a communications tool or both. Which is best?
- Should reviewers take COP content at face value?
- How can we ensure consistency between reviews?

Global Compact Network
United Kingdom

Result of WG activities

- Explicit adoption GC's minimum requirements;
- More supportive approach to COPs found non-compliant, including right to appeal;
- Reviewees provide a self-assessment;
- Steps to facilitate members receiving feedback prior to submitting COP to GCO.
