[If you answered the previous question, the following appears]

With respect to your company’s actions to advance the Sustainable Development Goals (SDGs), the COP describes: [Select all that apply]

- Opportunities and responsibilities that one or more SDGs represent to our business
  - E.g., new growth opportunities; risk profiles; improved trust among stakeholders; strengthened license to operate; reduced legal, reputational and other business risks; resilience to costs or requirements imposed by future legislation.
- Where the company’s priorities lie with respect to one or more SDGs
  - Conducting an assessment on the current and potential, positive and negative impacts that your business activities have on the SDGs throughout the value chain can help you identify your company’s priorities.
- Goals and indicators set by our company with respect to one or more SDGs
  - Setting specific, measurable and time-bound sustainability goals helps foster shared priorities and drive performance. To do this: Define scope of goals and select KPIs; define baseline and select goal type; set level of ambition; announce commitment to SDGs; select indicators and collect data.
- How one or more SDGs are integrated into the company’s business model
  - Integrating sustainability has the potential to transform all aspects of the company’s core business, including its product and service offering, customer segments, supply chain management, choice and use of raw materials, transport and distribution networks and product end-of-life. It involves anchoring sustainability goals within the business up to the board level, embedding sustainability across all functions, and engaging in partnerships.
- The (expected) outcomes and impact of your company’s activities related to the SDGs
  - Example: For a food company that sells nutritionally balanced breakfasts and lunches to primary schools, an output is the number of meals served. An outcome is the rate of malnutrition among children served. Impact is the company’s contribution to SDG Target 2.1, “end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round.”
- If the companies’ activities related to the SDGs are undertaken in collaboration with other stakeholders
  - E.g., United Nations agencies, civil society, governments, other companies
- Other established or emerging best practices
  - Please use the text box below to publicly share any other best practices. 255 characters or less, including spaces.
