The UN Global Compact’s **Making Global Goals Local Business – Dubai** series of events will explore how responsible business action on the Sustainable Development Goals (SDGs) can help create the world we want.

## Business for Peace Annual Event

### 26 October 2016

Jumeirah Mina A’Salama
Madinat Jumeirah | Al Sufouh Rd
Dubai, United Arab Emirates
#GlobalGoalsLocalBusiness

### Overview

Violent conflict and instability disrupt markets and societies, and the scale of our current humanitarian crises is unparalleled. One in 113 people globally has fled their home because of conflict and persecution—a number that has quadrupled in the past decade. With the cost of violence at 13.4% of world GDP, never before has it been so urgent to step up efforts in support of peace, and business can play an important supporting role.

The 2016 Business for Peace Annual event is the key convening for business representatives seeking to engage in the peace movement. Organized with the support of the Global Compact Network UAE, the event brings together over 200 leaders from business, investment, civil society, governments, the UN and Global Compact Local Networks. The focus of this year’s gathering is to collaboratively move the peace and humanitarian agenda from aspiration to action and identify opportunities for companies to align their strategies with SDG 16 – our new universal goal on peace and good governance.

### Objectives
- Inspire and expand the Business for Peace community by providing a space for learning and knowledge sharing
- Scale-up private sector contributions to peace aligned with SDG16 and the Agenda for Humanity
- Explore innovative multi-stakeholder partnership opportunities for peace and humanitarian action
