Hosted annually by the United Nations Global Compact on behalf of the UN Secretary-General, the UN Private Sector Forum brings the voice of business to the UN by inviting leading CEOs and investors, Heads of State and Government, senior UN leadership and select civil society representatives to take part in an interactive discussion and high-level networking opportunity structured around opportunities to scale impact on the Sustainable Development Goals (SDGs). This year on the 10th anniversary of the first UN Private Sector Forum, with the theme of Building and Investing in Peace for All, the Forum will focus on ways the private sector can work together with other stakeholders to secure a more peaceful and prosperous world that leaves no one behind.
