1 INTRODUCTION

Aequator Groen & Ruimte is an independent advisory firm from the Netherlands, with a leading role in (re)vitalizing rural areas and making them a better place to live, work and enjoy.

Our advisors are keen to match public and private goals and will always search for creative solutions that meet the ambitions of both the (local) government and the farmers, landowners and other users of the rural domain. To think in opportunities instead of threats is our central slogan. In the Netherlands we are forerunners in the design of environmental services agreements and financial constructions for the management of the rural space. Sustainability is therefore partly 'in our genes'.

Our expertise concentrates on the interfaces of agriculture, nature, soil, water and land use planning and is based on many years of experience as intermediaries between policy and practice. Our roots lie in the world famous Dutch agricultural extension service. Our working method is creative and aims to implement, to 'move' and to 'do'. Sustainability is leading for all our activities. Reporting on the sustainability of our own internal business processes perfectly fits this philosophy.

2 STRATEGY AND ANALYSIS

We are an advisory firm, active in the market of governments (national, regional and local) and land owners/land users of the rural parts of the Netherlands. Our services and produce are advisory reports, process advice and the like. In 2013, all our services were sold under the label / brand of "Aequator".

We are a commercial company; with limited liability (BV), under Dutch law, organized into two managerial units (market groups): one group ("200") contains management staff and secretarial support; the other group ("202") contains all other employees, being the advisory staff.

During 2016, one of the employees being also a shareholder left our company. His shares were taken over by the remaining shareholders. As of 31 December 2016, the company is owned by 3 shareholders, being 2 employees and 1 former employee contracted under a management contract. Our office locations remain in Harderwijk (c/o Postbox 1171, Harderwijk, NL-3840 BD) and Ede ((Bovenbuurtweg 27, Ede, NL-6727 XA).

Aequator is, as for now, active in the Netherlands only.

Our markets are remain governments (national ministries, regional provinces, local municipalities), water boards, organizations that own and manage the Dutch natural areas, private land owners, farmers, drinking water companies and other advisory firms.

3 GOVERNANCE, COMMITMENTS AND ENGAGEMENT
