Letter of Commitment for UN Global Compact

23 March 2017

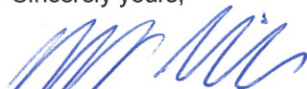

Dear Mr. Secretary-General,

SOS International (SOS) is pleased to confirm its support to the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, SOS expresses the company's intent to comply with the principles. SOS is committed to make the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of the company, and to engage in projects which advance the goals of the United Nations, particularly the Sustainable Development Goals.

SOS will make a clear statement of this commitment to the company's stakeholders and the general public. SOS recognises that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is *separate* from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Niels Krag Printz
CEO, SOS International
