Dear Mr. Secretary-General,

I am pleased to confirm that Primeast Ltd supports the ten principles of the Global Compact with respect to the four issue areas of human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Global Goals for Sustainable Development. Primeast will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency and therefore commit to report on progress within one year of joining the Global Compact and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by our managing director expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions that the company has taken to implement the Global Compact principles in each of the four issue areas.
- A measurement of associated outcomes and indicators.

We look forward to supporting this initiative.

Yours sincerely,

Russell Evans  
Managing Director
