Your Excellency,

RE: Letter of Commitment

I write today to express MECI's strong enthusiasm to support the ten principles of the Global Compact in lines with human rights, labour, environment and anti-corruption. MECI, as one of the major Professional Conference Organisers (PCO) in Korea, is committed to supporting UN goals, by initiating efforts to transform MECI's workplace environment and to redefine work ethics in accordance with the stated principles and goals.

As required, MECI shall submit regular Communication on Progress (COP) report every year, followed by a progress report within a year from the date of application for the Global Compact. Contents of report shall include:

- a) A statement signed by the Chief Executive Officer of MECI expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. It is understood that this statement is separate from our initial letter of commitment to join the Global Compact.
- b) A description of practical actions (i.e. disclosure of any relevant policies, procedures, activities) that MECI has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment and anti-corruption).
- c) A measurement of outcomes (i.e. the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

I very much look forward to becoming a proud participant of the UN Global Compact in the near future.

With best regards,

Bannie Kim
President & CEO
